For the Seed Trade...

It is a pleasure to again present our new crop Wholesale Flower Seed Catalog for your consideration, which lists varieties we have in production for 1944 crop delivery.

Upon our entrance into the War in 1941, it was soon apparent that we should reduce our acreage in Flowers and put this land to food production — which we were glad to voluntarily do in 1942. Vegetable crops — both seed and produce — comprised a large part of our harvest in 1942, and also in 1943. This acreage will be duplicated again for production from 1944 crop.

With the Flower Seed demand steadily increasing, it is unfortunate that we are faced with almost unsurmountable obstacles in reduced acreage and the generally current problem of labor shortages. We have more than doubled our pre-war mechanized equipment, but still many items require all hand labor, and production on these varieties has necessarily been severely curtailed for the duration. We still hope, however, to be able to take care of your usual requirements on most items, and will do our best to fill all orders booked.

Some thirty members of our pre-war personnel are now serving as officers and enlisted men in the U. S. Army and Navy on various fronts, including Europe, Alaska and the Southwest Pacific. We are proud of these men and hope they will all soon be able to return to more peaceful pursuits.

We want to thank you, our customers, for your friendship and business during the past year, and assure you it is indeed very much appreciated.

A handwritten signature in cursive script, reading "W. J. MacDonald". The signature is written in dark ink and is positioned at the bottom right of the page.

Terms and Conditions of Delivery...

All seeds are offered F. O. B. Santa Maria, California, for delivery from 1944 crop as soon as possible after harvest. Invoices to firms of established credit are subject to a discount of 2% for cash in 30 days from invoice date, or 60 days net. New customers should furnish two credit references if shipment is desired on an open account basis. Otherwise delivery will be made C. O. D. All foreign invoices are payable in U. S. Dollars at the current rate of exchange. All overdue accounts are subject to a sight draft without further notice.

Unless otherwise specified on your orders, all shipments will be forwarded via the most economical method of rail transportation. Parcel Post and Express packages arrive in Chicago on the fourth day or at New York City in five days from Santa Maria. All rail freight shipments will be routed over the most direct line to your city.

Prices quoted in this catalog apply against all 1944 crop purchases, and are effective immediately on all spot orders. We reserve the right to change these prices at anytime without giving further notice. We are Wholesale Growers and supply the Seed Trade only.

Bags and containers will be charged at net cost. We will be pleased to have you return any used cotton bags in good condition on a 50% discount basis. Kraft paper packets and cotton bags less than the one pound size will be supplied gratis. All orders for four ounces or more will be charged at the pound rate, less than four ounces at the ounce rate. This same billing scale will be used on items listed by the ounce, unless otherwise priced in our catalog.

We will plant sufficient land to produce the quantity of seed ordered under normal conditions; however, crop failure or any other cause beyond our control releases us from delivery and in the event of shortages, we will fill contract orders on a pro-rata basis only.

We give no warranty, express or implied, as to the productiveness of any seed we sell and will not be in any way responsible for the crop. Our liability in all instances, is limited to the purchase price of the seed. (Standard non-warranty clause of American Seed Trade Association.)

EARLY FLOWERING SPENCER SWEET PEAS

The continued popularity of Sweet Peas as a Florist cut-flower, is undoubtedly due to the steady improvement being made in color and size of bloom. We are specialists in the production of Florist varieties and have originated many of the current market favorites.

INTERMEDIATE OR SPRING FLOWERING SPENCER SWEET PEAS

This is a comparatively new class of "Early" Sweet Pea, that has remarkable heat resistance for flowering outside during the late Spring months. Heavy vines and strong stems are characteristic of this group. Varieties with a star (★) are also Winter Flowering when planted in August or September, but the others will not bloom until early Spring.

FIFTEEN BEST SUMMER SPENCER SWEET PEAS

The large number of Late Spencer Sweet Peas now being grown are indeed confusing to the average Seedsman. Many of these colors are older introductions and usually inferior to the newer sorts. We are glad to recommend the following varieties, which our trials have shown to be the best on the market. Refer to page 50 for complete classification.

Bonny Briar , rose pink	Maytime , golden cerise
Capri , light blue	Patricia Unwin , golden salmon
Flagship , navy blue	Rubicund , crimson scarlet
Flamingo , orange scarlet	Snow White , white
Flora , deep lavender	Sweet Afton , silver pink
Golden Dragon , orange	Welcome , scarlet
Loch Lomond , mahogany	What Joy , cream
Windsor Blue , mid-blue

STOCK GIANTS OF CALIFORNIA

In the Branching types of Stock, the Giants of California varieties rate first choice for all forcing or greenhouse purposes. It’s early and free flowering characteristics are familiar to most Florists. Seedsmen like to handle this strain because there are never any complaints on doubles percentage, as all Giants of California varieties will average better than **70% double!** One mammoth spike can be produced if the plants are transplanted into four or six inch squares—but if set farther apart they will produce well branched plants with long stems of florets. Two inch, closely spaced florets are typical of this strain.

COLOR CLASSIFICATION

In addition to our regular four acre Sweet Pea trial Ground, we recently conducted a series of color tests on every Sweet Pea variety that is offered for sale. An especially outstanding variety in each color group is indicated by two stars (★★). Those with one star (★) are highly recommended and will give fine results. All recommended varieties are vigorous growers, and will produce immense flowers on long stms.
